

Welcome to Paradise!

FLY-IN WITH OUR OWN FLEET OF AIRCRAFT

We own and operate Cessna Caravan, Beaver and Bush Hawk aircraft. Be assured, our first priority is your safety. Our pilots are seasoned veterans, so along with our own maintenance facility and professional pilots we will ensure efficient air transportation to your fishing destination.

FRY LAKE

Max. 10

You can count on spectacular results, with numerous weed beds and drop offs. You can expect a bigger than average size Walleye and fast action from the Northerns.

WESLEYAN LAKE

Max. 6

There's plenty of moving water, so expect fast action from the Walleyes; large Northerns wait in the depths.

DEVIL'S RAPIDS

Max. 8

The cabin is located one half mile from a large incoming rapids, numerous islands, currents and weed beds. You'll love this location - there are plenty of areas to explore.

KEZIK NORTH

Max. 8

One of 3 cabins on the lake, it is located between Devil's Rapids and Kezik Lemon. With high quality of fishing on Kezik Lake, reserve this spot if you can!

BAMAJI LAKE SINGLE CABIN

Max. 6

Fish Bamaji Lake but be on your own in this little gem. Five miles from the main lodge at Bamaji.

KEZIK LEMON

Max. 8

A favourite location for outstanding Walleye and Northern fishing. There are many areas to explore with over 50 miles of shoreline. With so many hot spots close to the cabin, many fishermen have never explored the entire lake.

All outposts have hot/cold running water, indoor showers and solar lights.

Knobby's Fly-In Outposts boast very light pressure due to the fact that we are the only cabins on our lakes, even during our busiest weeks you will see few boats, as our guests seek out hidden bays and favorite fishing spots.

CAT RIVER SYSTEM

A Walleye Factory

All of our cabins but one, are located on the Cat River System. These lakes have rapids flowing in and out of them. This moving water stirs up feed for the fish, which make fishing exceptional for both Walleye and Northern. Even during the "dog days of summer" the fish on the Cat River System never quit biting.

Bamaji Lake consists of seven extra-large housekeeping cabins situated in a stand of birch, with a 300' sand beach. The cabins are situated so as to provide you with a great degree of privacy. Our cabins include hot/cold running water, indoor showers and toilets.

The staff greets you when your plane docks and hauls your gear to your cabin. When you are ready to go fishing, they show you how to operate the outboard motor. They go over the map of Bamaji with you and mark off some hot spots.

While staying at the main lodge the on site staff ensure we meet all your fishing needs. A satellite telephone is here for communication.

Bamaji Lake Lodge can handle groups of up to 40 people. Each cabin sleeps 8-10 adults comfortably.

Bamaji Lake is situated 80 miles directly north of Sioux Lookout, and has over a 100 miles of shoreline. Bamaji is fed by many rivers & streams. There are numerous excellent fishing spots on the lake, and during your stay you will be able to explore different areas, all with great angling potential.
